

MAP Trays

Preserve Freshness, Reduce Waste, Elevate Your Brand

TEKNIPLEX

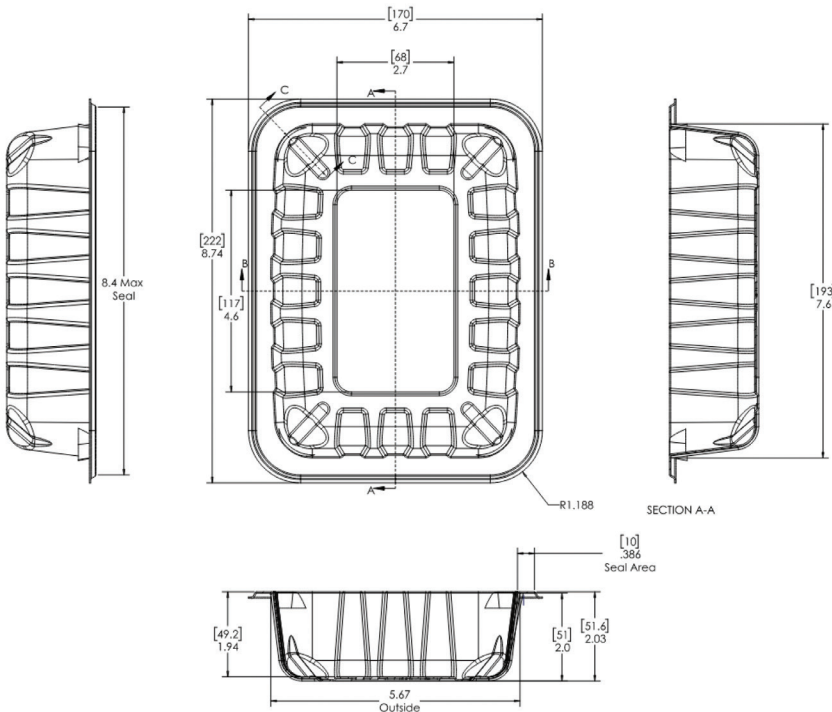

Consumer Products

Our innovative line of Modified Atmosphere Packaging (MAP) trays is designed to revolutionize food preservation and quality. Our trays combine cutting-edge technology with sustainable materials to offer the ultimate solution for extending shelf life and enhancing product appeal.

Overview

From produce, meat and seafood, to deli and prepared foods, elevate your products with our high-performance MAP trays, the future of fresh food packaging.

- Reduce Food Waste.** Significantly lower the amount of discarded food, positively impacting your bottom line and the environment.
- Increase Brand Loyalty.** Deliver consistently fresh products that keep customers coming back for more.
- Minimize Returns.** Enhance product quality and reduce returns due to spoilage.
- Differentiate Your Brand.** Stand out on the shelf with innovative packaging that highlights your commitment to quality and sustainability.
