

Vaginal wash bottle with cannula

Vaginal wash bottle with pre-inserted cannula offers a turnkey package for feminine hygiene products

OVERVIEW

- 150 ml blow molded bottle with cannula separately packaged.

- Cannula and valve have been injection molded with no burrs, flashes or sharp edges to enable safe dispensing near delicate areas.

- Cannula has non-return flow regulation valve to prevent contamination.

- Customization possible with embossed, text or logo.

- Blow molded bottle with thin sidewall facilitates squeezing and total product evacuation.

- 360° rotating cannula is an option.

- Soft bottle with thin sidewalls for easy-use and total product evacuation.
